Mula Sweeps Redemption Policy

This policy takes effect when Mula Sweeps announces its official launch. Each minimum below is the smallest amount you can request from your redeemable balance.

Free play buybacks

For winnings from a free play award, the minimum buyback is 3 times the original award and the maximum is 5 times that award.

With $10 in free play, you can request a buyback once your balance from that award reaches **$30**. Even if it reaches $60, the most you can redeem from the award is **$50**.

First deposit bonus

When you receive a sign-up bonus, calculate your minimum redemption by multiplying your original deposit alone by 4.

With a $20 deposit and a $20 sign-up bonus, you start with $40. Your minimum redemption is **$80** (4 × $20).

Regular deposits with a bonus

For a regular deposit that includes a bonus, add the deposit and the bonus together. Your minimum redemption is 2 times that total.

A $20 deposit plus a $5 bonus totals $25. The minimum redemption is **$50** (2 × $25).
